VOLUME XXII, NO. 12

DECEMBER 1996

## PRELIMINARY REPORT ON SUGGESTED FEDERAL MILK ORDER CONSOLIDATION

The 1996 Farm Bill requires the consolidation of the current 32 orders into between 10 to 14 orders. As indicated on the map, ten marketing areas are suggested in the preliminary *consolidation* report. As a means of determining where interrelationships among the current marketing areas are strongest, data relating to the receipt and distribution of fluid milk products by distributing plants were gathered for all known distributing plants located in the 47 contiguous States, not including the State of California, for the month of October 1995. At this time, California is not included as a suggested order area. The 1996 Farm Bill allows for the inclusion of a California Federal milk order if California producers petition for and approve an order. If a California were included in the suggested Federal order structure at a later time, it would encompass the entire State and would include no area outside the State of California. Although interest in a Federal order has been expressed by some California producer groups, no definite action has been taken.

A copy of the *consolidation* preliminary report can be obtained from the Dairy Division, AMS/USDA, Room 2968, South Building, P.O. Box 96456, Washington, DC 20090-6456, (202) 720-4392. This report can also be obtained from any Market Administrator office or via the Internet at <http://www.usda.gov/ams/dairy.htm> under the "Federal Milk Order Reform" heading.

This report was drafted by the Agricultural Marketing Service's Dairy Division. It contains suggestions, ideas and initial findings to provide a focal point for developing proposed rules to implement the order consolidation required by the 1996 Farm Bill. Industry and public input on the report and the submission of ideas or suggestions on any aspect of the regulatory program are requested. We request that all ideas or suggestions be mailed to the Dairy Division at the above address or E-mailed to

[Milk\\_Order\\_Reform@usda.gov](mailto:Milk_Order_Reform@usda.gov) by February 10, 1997, although they will be accepted throughout the entire process.

As addressed in a Memorandum to Interested Parties on October 24, 1996, interested parties are specifically invited to provide input on the probable regulatory impact of Federal order changes or modifications on small businesses. A dairy farm is defined as a "small business" if it has a gross revenue of less than \$500,000 per year, and a handler is a "small business" if it has fewer than 500 employees. To obtain additional information regarding small business input, please write to the above address or access information at the Internet address.

In addition to this report, university studies concerning the *Basic Formula Price* and *Price Structure* are being conducted in conjunction with Federal order reform. Reports of these studies are available.

Copies of Interim Report, AFPC Working Paper 96-5, "An Economic Evaluation of Basic Formula Price (BFP) Alternatives," completed by the BFP University Study Committee, may be obtained for a nominal charge from:
